How To Make a Zebra CD Holder

Hello, guys! Have you ever had a CD holder? If you have, you can skip this text (just kidding). If you don't have, that's alright. I will teach you how to make a Zebra CD Holder!

First use sellotape to stick the lid onto a shoe box. Then stick four toilet rolls on the bottom of the box as the legs of Zebra.

Next use sellotape to stick the lolly stick on the back of the box as the tail of the Zebra (you can stick it upwards or downwards. It's up to you). Besides that, use sellotape to stick one toilet roll on the cereal box and stick the other side of the toilet roll on the lid as the head of Zebra.

After that use a pen to draw the ears of Zebra and use scissors to cut them out.

Also, use glue to stick the ears on the cereal box.

Use torn newspaper to cover the body of Zebra too.

Finally use paintbrush to paint on the Zebra's body!

Have you finished it? I think you can finish it in twenty minutes!
