Good Behaviour In Public Places

We should behave well in public places if we want to be good citizens.

We have to behave at a swimming pool. We shouldn't pee in the swimming pool. We also mustn't take our phones under water to secretly take pictures of others. We must never push people into the water. It will cause them to be drowned too. We must keep the swimming pool clean. Of course we should aware of the wet floor. We should be familiar with the depth and rules of the swimming pool too.

In the basketball court, we shouldn't hit people with balls because that is rude and may hurt others. We also shouldn't scold others just because they miss the ball. We mustn't intentionally hurt others when playing games too. We should be careful about getting hit by the ball. We must also keep the court clean. We should shoot the ball well on the basketball court.

If we all behave well in public places, we can enjoy the facilities better.
