A day I will never forget

I will never forget a day when I visited Disneyland for the first time. Going to Disneyland was an enjoyable experience.

I visited Disneyland with my family when I was nine years old. When we got there, I was very excited to go on the rides.

It was the second time I rode on the rollercoaster. I was very excited and a little bit scared.

At lunch time, we went to the restaurant to have some cups of cola. They were all yummy!

When it was eight o'clock, we went to the castle to watch the fireworks. It was colourful and beautiful.

By the end of the day, although I was hungry as we didn't eat dinner, I was happy with the trip. I hope I can go to Disneyland again next year!
