

Class: 6A (15)

Name: Zhan Hing Man

My Dream Job

When I grow up, I want to be a lawyer because fairness and justice is important to everyone.

If I become a lawyer, I will be entrusted by the parties or designated by the court to assist the parties in litigation and appear in court to defend themselves. Also, I will work in law office or court if I become a lawyer. I will handle relevant legal matters as well.

Lawyers need to have excellent social skills and quick thinking, including verbal expression and written expression, and be able to speak rationally and calmly. I should be hardworking and do more writing exercises to improve my writing skills. Also I need to read more books so that I will learn more useful words.

I'm not sure whether I am suitable to be a lawyer or not. However, I believe that as long as I work hard, I can succeed. From now on, I need to study hard and lay the foundation for my future dream of being a lawyer. I believe one day I will become a lawyer. If I don't succeed, it will be a lifelong regret for me.
